

Data and Reports

From 4th July 2022, your MidYIS and Yellis reports will look different. As part of our ongoing programme of improvement, we have updated the Interactive Reports.

List of interactive reports now available

1. Individual Student Report
2. School Band Graph
3. Summary of Year Group Scores
4. Seven Band Profile
5. Scores Comparison
6. School Performance Comparison
7. Standardised Scores
8. Historical Boxplot
9. Historical Band Profiles
10. All Chances
11. Individual Student Subject Chances
12. Predictions
13. School Chances
14. Individual Student Predictions
15. Individual Subject Predictions
16. School Value Added
17. Scores Value Added
18. Subject Value Added

Technical requirements

It is important that you have the latest stable version of Chrome browser installed on your computers.

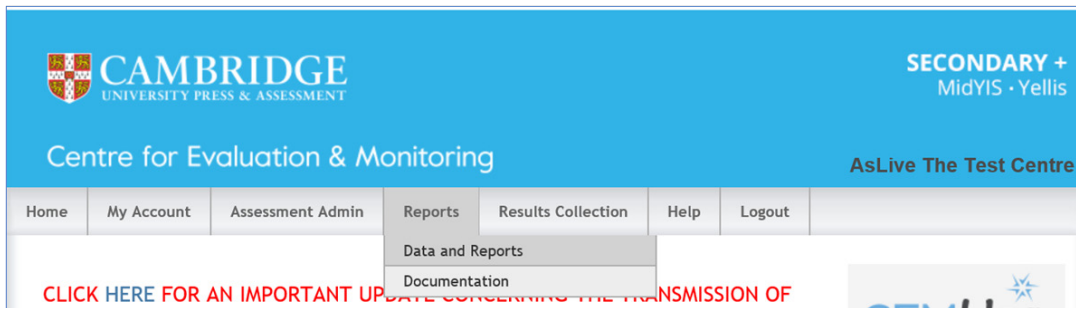

To use the new data and reports, you will need to ensure that our web addresses are allowed (whitelisted) by any network firewall you have in place. The manager of your computer network should be able to help with this. The following websites will need to be included:

<https://visualisations.cem.org>

<https://rplogs.cem.org>

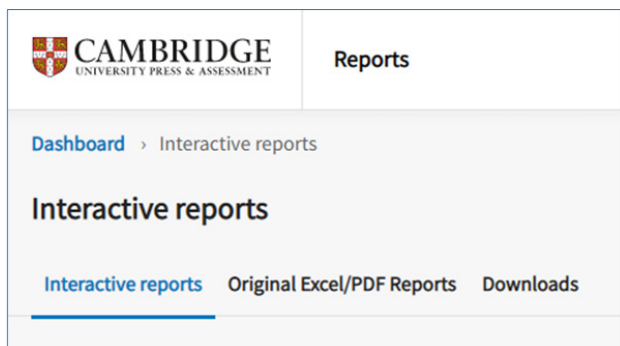

Accessing the reports

Log onto [Secondary+](#) > Reports > Data and Reports

This will open the new data and reports area where you will see three tabs:

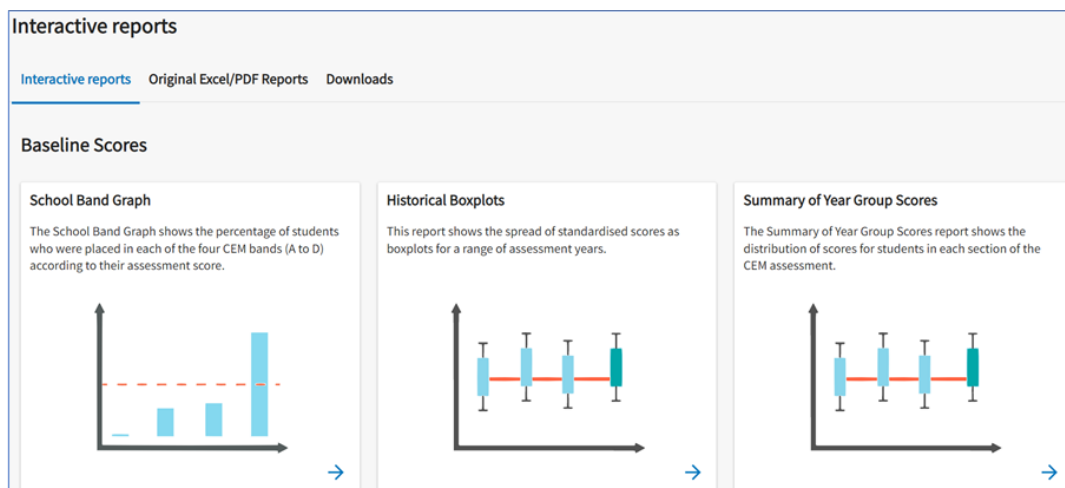

- Interactive reports
- Original Excel/PDF Reports
- Downloads

Interactive Reports

You will then see a series of images, each representing an interactive report, split into 3 sections.

Baseline Scores

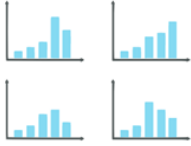

Predictions and Chances

Predictions & Chances

All Chances

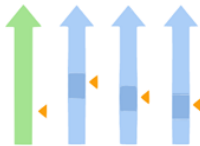

The Secondary Chances report shows the likely distribution of grades for a specific year group in a selected subject.

→

Individual Student Subject Chances

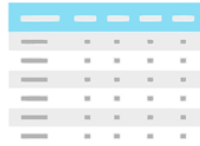

The Individual Student Subject Chances report shows an individual student's score in the CEM assessment alongside likely outcomes for selected subjects.

→

Predictions

The Predictions report provides a detailed overview of likely grade outcomes in a wide range of subjects for all students, based on their performance in the CEM assessment.

→

Value Added

Value Added

School Value Added

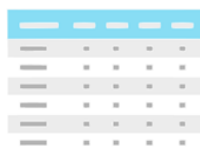

The School Value Added report shows a summary of the differences between predicted grades and awarded grades (value added) for a range of chosen subjects for an individual year group.

→

Scores Value Added

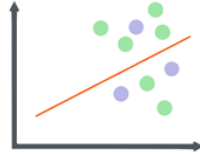

The Scores Value Added report provides a detailed overview of the differences between predicted grades and awarded grades (value added) for all students in a year group for all available subjects.

→

Subject Value Added

The Subject Value Added report is an interactive report (plot and table) that compares predicted and awarded point scores for each student in a selected subject.

Depending on the report you select, the content can be filtered in different ways.

Some reports will open straight away. When the report opens select **Filter By**, this will open another window which will allow you to amend your filters.

Report Controls

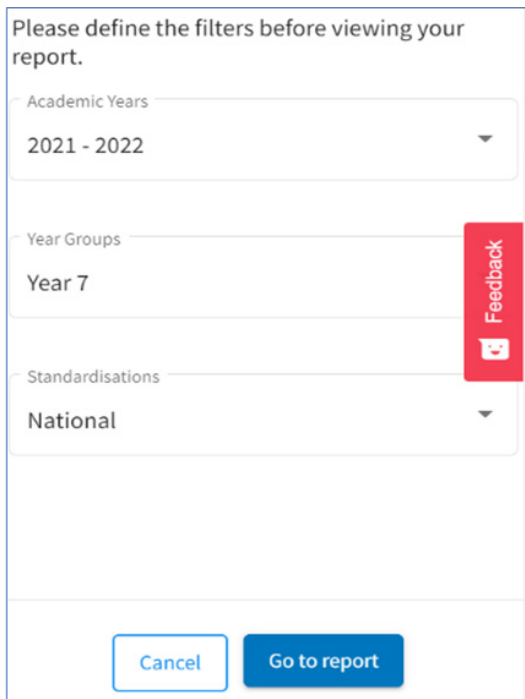

[Set Academic Year](#) | [Filter By](#) | [Exports](#) | [Save](#)

FILTER BY [HELP]

Field	Value(s)	Options
Year Group	Year 7	Edit Remove
Standardisation	National	Edit Remove
Gender(s)	All	Edit Remove

+ Add Filter

Some reports will open a prepopulated filter before the report opens. You can amend your filters before clicking **Go to report**.

Please define the filters before viewing your report.

Feedback

Cancel Go to report

Once you are in the report, you can still amend the filters by clicking the dropdown boxes above the report.

Dashboard > Interactive reports > Historical Band Profiles

Historical Band Profiles

Interactive reports Original Excel/PDF Reports Downloads

← Historical Band Profiles Report info

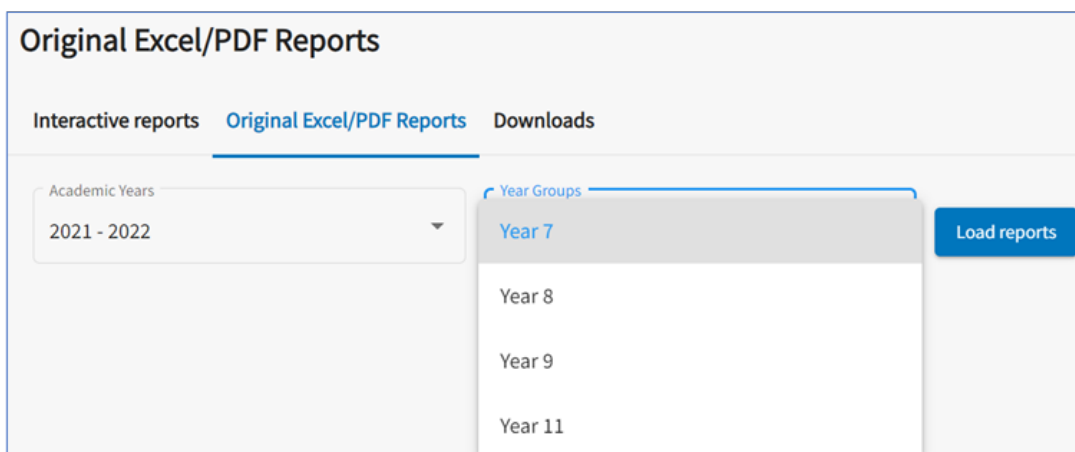

The Historical Band Profiles report shows how students' scores were grouped into the four CEM bands (A to D) in the four most recent assessment years.

Year Group: Year 7 Standardisation: Independent Score Type: Overall

Original Excel/PDF Reports

The original style of reports are still available. To access them go to:

Original Excel/PDF Reports > Academic Year > Year Group > Load Reports
